

## Help shape the future of the Richmond Education and Enterprise Campus

Richmond upon Thames College, Richmond Council, Haymarket Media Group and Harlequins

are working together to create an Education and Enterprise Campus on the College site on Egerton Road in Twickenham.

Over the next six months, work will be undertaken on the design and layout of the site, in anticipation of a planning application being submitted later in the Autumn. As part of this work, you are invited to have your say on the top level proposals for the site – helping to shape the plans as they evolve.

In 2012 Richmond upon Thames College and Richmond Council announced a feasibility study considering the future of the College on the Egerton Road site.

The study looked at future improvements to College buildings, the possibility of opening a new secondary school to meet future demand and the opening of a new purpose built Clarendon School for children with special educational needs.

Since this consultation, the project has developed and become the '**Education and Enterprise Campus**' – a College and Council working in partnership with Haymarket Media Group and Harlequins rugby club. All partners are working together to deliver the above educational

opportunities, which are enriched through the inclusion of a new headquarters for Haymarket.

By working in partnership it is intended that the Campus will deliver the highest quality education with unparalleled opportunities for developing skills and pursuing employment, through access to resources and work opportunities such as work experience, apprenticeships and, ultimately, jobs.
